

ROBITO Whitepaper

The Legend of ROBITO

Whitepaper - Version 1.0

Date: July 26, 2025

Introduction

ROBITO is a meme-driven, rabbit-themed cryptocurrency built on the Binance Smart Chain (BSC). Inspired by the spirit of fun, community, and decentralization, ROBITO hops into the world of DeFi with a focus on memes, gaming, NFTs, and utility. This whitepaper outlines the vision, tokenomics, and future roadmap of ROBITO.

Tokenomics

Total Supply: 1,000,000,000 \$ROBITO

- 100% Four Meme Launchpad

Utility & Use Cases

1. Community Engagement: Meme contests, airdrops, and events.
2. Gaming: Carrot Kart - a bunny-themed arcade game to earn \$ROBITO.
3. NFTs: Limited edition Robito NFTs with staking benefits.
4. DAO: Governance through BurrowDAO where holders vote on proposals.

Roadmap

Q3 2025:

ROBITO Whitepaper

- Token launch on BSC
- Liquidity lock and first airdrop
- Community building and marketing

Q4 2025:

- NFT launch
- Game beta testing
- Exchange listings

2026:

- Full Burrowverse expansion
- DAO governance live
- Additional utility integrations

Conclusion

ROBITO is more than a coin. It is a movement. With a foundation built on humor, trust, and bunny-powered dreams, ROBITO is poised to become a staple in the meme-coin ecosystem. Join us as we hop toward a decentralized, joyful future.
